FRIDAY'S FIGURES ON GRAIN

INDIANAPOLIS AND CHICAGO LIVE STOCK QUOTATIONS.

Provisions-Gossip from the Brokers - Speculative Opinion-Notes and Comments-Local Jobbing Quotations.

Ingalls, the crop expert, says that all the spring wheat will be out of danger from frost by the last of next week.

Farmers continue to hold back their wheat. Informants from all points say that much less wheat is being received now than at this date in 1937. St. Louis today received only 32,000 bushels of wheat, against 60,000 bushels in 1937 and Toledo only 20,000 against 32,000 bushels.

Broccoli market says the government report just issued says the spring wheat crop in 1938 many parts of Russia. The answer cable says that Russia is harvesting a heavy crop of wheat.

A close watch will be kept on the weather forecast for Saturday. The temperature may, it is feared, be low enough to excite apprehension of a frost in the spring wheat territory to-morrow.

PRAISE OF OVAL RACES

WHAT ALBERT MOTT, CHAIRMAN OF RACING BOARD, SAYS.

The Indianapolis People, He Says, Have Appreciated What They Have. Walter M. Wilson's Praise-Trial Heats To-Day.

Albert Mott, acting referee at the Newby oval and chairman of the L. A. W. racing board, is enthusiastic over the track and its appointments. Mr. Mott said this morning: "The racing this week has been the finest ever seen on any bicycle track in the country. It is all of my experience with bicycle racing I have never witnessed such sport. The men are all in excellent condition and riding like the wind. For the track to take four competition records in two days is in itself a remarkable performance. I consider the Newby oval one of the fastest tracks in the country. In fact, I do not now recall a track that is as fast as the one on which the national championship races have been run this week. Indianapolis is to be congratulated on the track and its equipment, and the men who have built the Newby oval deserve the thanks of every wheel rider in the country. I find that the feeling in regard to the track is shared by every racing man. They all say that it has no equal, and they feel perfectly safe in negotiating it at any speed."

"I look for two great races to-night. The fifteen-mile match race will probably result in another reduction of the records. Martin, while suffering from a cold, has been one of the best riders in the country, and can follow any pace. Johnson is an older lightning race rider, and one of the fastest men in the country on the big machines. I look for wonderful time to be made."

"Without wishing to criticize Indianapolis people, I must say that it is, nevertheless, the fact that the racing has not been appreciated by the local wheelmen. With such racing in any of the cities, it is a pity that the local crowd has not been taxed. It must be due to a lack of education in the sport, for such racing deserves the highest patronage."

Walter M. Wilson, chairman of the course, says that the Newby oval is undoubtedly the fastest track in the country. Mr. Wilson is one of the best-informed men in the country on bicycle racing, and says that this is the greatest wheel sport he has ever seen. He considers the arrangements at the track both for handling the riders and spectators better than those at any other track in the country.

TO-DAY'S TRIAL HEATS.

Qualifying for To-Morrow Afternoon's Final Events—Results.

The qualifying heats for to-morrow's final races of the national L. A. W. meet were contested at Newby oval this morning, with perfect weather prevailing and nearly all of the men riding true to form and expectation. No surprises developed. As a rule the time was slow, but since speed is not the only factor in bicycle racing, that fact is not to be considered as detrimental to the sport. Bald, Johnson, and Taylor were the best riders in the one-mile championship professional, while O. L. Stevens, Jay Eaton, Tom Cooper, and John Johnson were the best in the amateur races. The riders who qualified for the final by reason of finishing second in their respective trials. Kimble, Johnson, and Taylor were the best in the two-mile, and Oldfield and McCarthy were responsible for Johnny Johnson's win in the five-mile. The riders who qualified for the final by reason of finishing second in their respective trials. Kimble, Johnson, and Taylor were the best in the two-mile, and Oldfield and McCarthy were responsible for Johnny Johnson's win in the five-mile.

Referee Mott, the Detroit amateur, who yesterday fouled Collett in the five-mile championship, was adjudged to Collett for his unfair riding and was removed from the race. The referee to remove Porter's disqualification.

SOME MORE GOOD RACING

BALD'S TRIUMPH IN HALF-MILE CHAMPIONSHIP YESTERDAY.

"Plunger" Martin's Tire Exploded in the Great American Handicap Causing a Spill—Castello a Surprise as Winner.

The excellent sport which Newby oval is already gaining a reputation, was continued yesterday afternoon when the second day's racing was run in the presence of a delighted crowd. While there was no multiplet handicap to transform an audience of spectators from mere on-lookers to enthusiastic fans, there was enough excitement to make the afternoon noteworthy and to satisfy the riders that they were getting the most out of the race. True to form and expectation, Eddie Bald rode gamely and magnificently to the front in the half-mile national championship, and was the victor. He was warmly saluted by the crowd, and as if not to disappoint their friends, Collett and Hausman, the Connecticut wheelmen, continued their superb and winning work in the amateur events, while above all else, so far as public interest goes, the American handicap was a combination of good, bad and indifferent results, of wonderful sprinting and tire-some losing, and of marvelous gains and unaccountable losses.

Shortly before the time for the first race, a light rain fell, but the sun came out soon, drying the course and making it faster, if possible, than ever.

The semi-finals of the quarter-mile amateur championship were first run. First semi-final—L. Kramer, 1, and E. C. Hausman, 2. Time, 0:32.45. Second semi-final—George Schofield, 1, and Edward Llewellyn, 2. Time, 0:32.45.

Final—G. H. Collett, New Haven, Conn., 1, and Edward Llewellyn, Chicago, 2. Time, 0:31.45. Great American handicap, two miles: First heat—Bald, Freeman, Eaton, Oldfield, McCarthy, time, 4:15.25. American handicap, two miles: Second heat—Gardner, Cooper, Martin, McFarland, E. D. Stevens and Becker, time, 4:15.25.

Third heat—May, Costa, Ball, Watson and Willey, time, 4:07.35. Final heat—Frank Collett, St. Louis, 1, and Otto May, Erie, Pa., 2. Time, 4:01.45.

Half-mile championship, professional: First semi-final—McFarland and Cooper, time, 1:02.35. Second semi-final—Bald, Gardner and Freeman, time, 1:02.35.

Final—E. C. Bald, Buffalo, 1, and F. A. McFarland, St. Louis, 2. Time, 1:01.35. Five-mile championship, amateur: First semi-final—Earl W. Peabody, Chicago, 1, and Charles W. Newell, St. Louis, 2. Time, 1:15.15.

Final—Earl W. Peabody, Chicago, 1, and Charles W. Newell, St. Louis, 2. Time, 1:15.15. The result of the professional championship race alters the championship record considerably, Bald securing a lead over Cooper, who is 15 points ahead of him. The record is now 15 points in favor of Bald, who, with Bald, led the table after Wednesday's race, are now in fourth place. This is the record to date:

EDWARD C. BALD. Stevens, Johnson and Verner following in the order named. On the last turn Bald started the sprint and held it, and the field was following him across the tape.

Bald had the pole in the final, with McFarland on his right, Gardner in third place, Cooper next and Freeman on the outside. Cooper caught the pace, which was set by Jay Eaton, and at the breakaway Bald sprinted. He could not be beaten, and the crowd greeted him with great cheering as he sailed across the tape, looking serene and happy and every inch the champion that he is.

Freeman, who was second, was followed by McFarland, the tall, lean and wiry Californian, defeated Freeman, Cooper and Gardner, who finished in third, fourth and fifth place respectively.

Immediately after the race McFarland protested Gardner for interference, while Gardner protested McFarland for blocking. The referee, Mott, thought the best way to deal with hard feelings was to smooth the matter over, and gave a little fatherly advice to both of the boys and let the race stand.

The final of the mile handicap, amateur, had eleven starters, with Rogers and Bald the two men who reached here to-day's bicycle century run, having made the fourteen miles in one hour. Mr. and Mrs. Merriam, of St. Louis, on a tandem, were the first to start, and after a few minutes, as they were endeavoring to beat the record. The party of ten, which left Indianapolis at 5:30, arrived here at 7:15. A. Gardner, J. J. Eaton, J. P. Pease, and C. W. Donham, of Indianapolis, were the first to start, and after a few minutes, as they were endeavoring to beat the record. The party of ten, which left Indianapolis at 5:30, arrived here at 7:15.

TO-NIGHT'S GREAT RACES

THREE SPECIAL EVENTS OF STIRRING INTEREST.

Middle-Distance Match Race by Martin and Johnson, Each with Thirty Pounds—Bald and Cooper—Gibson and Wagner.

A program of unusual excellence, with three distinctive events, will be presented at Newby oval to-night, beginning at 8 o'clock, and it is expected that the attendance will be greater than it was last Friday evening, when the seating capacity was tested almost to its limit. One of the scheduled events is a fifteen-mile paced match race for \$1,000 between "Plunger" Martin, the champion of Australia, and the conqueror of Harry D. Eikes, who holds the world's hour record of thirty-four miles, 1,223 yards, and John S. Johnson, the king of record-breakers and pace followers. This will be the first real middle-distance race ever run at Indianapolis, and that it will be a contest well worth witnessing is a foregone conclusion. Much speculation concerning the probable winner of this event is being indulged in by those followers of racing who are now in the city, and so evenly matched are the contestants and so brilliant are the promises of an evenly contested race, that neither man can be said to have the slightest advantage over the other. Each rider will be paced by thirty men.

Bald learned to fear him for Cooper, who has come into vogue only during the last two years, is, by far, the most entertaining department of the cycle sport. The men are all in excellent condition and riding like the wind. For the track to take four competition records in two days is in itself a remarkable performance. I consider the Newby oval one of the fastest tracks in the country. In fact, I do not now recall a track that is as fast as the one on which the national championship races have been run this week. Indianapolis is to be congratulated on the track and its equipment, and the men who have built the Newby oval deserve the thanks of every wheel rider in the country. I find that the feeling in regard to the track is shared by every racing man. They all say that it has no equal, and they feel perfectly safe in negotiating it at any speed."

"Without wishing to criticize Indianapolis people, I must say that it is, nevertheless, the fact that the racing has not been appreciated by the local wheelmen. With such racing in any of the cities, it is a pity that the local crowd has not been taxed. It must be due to a lack of education in the sport, for such racing deserves the highest patronage."

Walter M. Wilson, chairman of the course, says that the Newby oval is undoubtedly the fastest track in the country. Mr. Wilson is one of the best-informed men in the country on bicycle racing, and says that this is the greatest wheel sport he has ever seen. He considers the arrangements at the track both for handling the riders and spectators better than those at any other track in the country.

TO-DAY'S TRIAL HEATS.

Qualifying for To-Morrow Afternoon's Final Events—Results.

The qualifying heats for to-morrow's final races of the national L. A. W. meet were contested at Newby oval this morning, with perfect weather prevailing and nearly all of the men riding true to form and expectation. No surprises developed. As a rule the time was slow, but since speed is not the only factor in bicycle racing, that fact is not to be considered as detrimental to the sport. Bald, Johnson, and Taylor were the best riders in the one-mile championship professional, while O. L. Stevens, Jay Eaton, Tom Cooper, and John Johnson were the best in the amateur races. The riders who qualified for the final by reason of finishing second in their respective trials. Kimble, Johnson, and Taylor were the best in the two-mile, and Oldfield and McCarthy were responsible for Johnny Johnson's win in the five-mile. The riders who qualified for the final by reason of finishing second in their respective trials. Kimble, Johnson, and Taylor were the best in the two-mile, and Oldfield and McCarthy were responsible for Johnny Johnson's win in the five-mile.

Referee Mott, the Detroit amateur, who yesterday fouled Collett in the five-mile championship, was adjudged to Collett for his unfair riding and was removed from the race. The referee to remove Porter's disqualification.

The morning's racing started at 10:15, and resulted as follows: Mile championship, professional: First heat—Bald, O. L. Stevens, 2:10. Second heat—Bald, O. L. Stevens, 2:10. Third heat—Bald, O. L. Stevens, 2:10.

Milwaukee, Wis., August 12.—The Hoosiers defeated the Brewers yesterday in an exciting game which lasted for twelve innings. It was the first game Indianapolis has won in this city during the present season, and it was obtained only by a narrow margin. For ten innings the game was a draw, as the Hoosiers were unable to score, and the Brewers pitched as they probably never did before. They held down the hits to a low point, and were backed by splendid fielding. Only two runs were made during the afternoon, and both of them were charged to Bob Allen. But neither of them was expensive. In the seventh inning Indianapolis began to solve Retterer's delusive curve, and he was pounded hard. In that inning both clubs scored, and the contest continued to be anybody's game. In the twelfth the Hoosiers went to batting again. McFarland slipped in one of his three-base hits and Sam Nichol drove a long fly into the field, which enabled McFarland to cross the plate with the winning run. As Stewart played a fine game at second, and much of the victory was due to his work, McFarland was the strongest of the Indians, played at the bat, being credited with three hits. Frank Foreman made two, and singles by Hogreiver, Kane and Allen ran the total up to three. Milwaukee made six hits, two of them being doubles. The score:

The Senators and the Giants alternated
at winning yesterday. The Washington
club played a better game than it has
for some time. Each team won by hit-
ting the ball.

There was a memorable contest at New
York when the Orphans and Brooklyn
played fourteen innings. The game lasted
so long that it prevented the second one,
which was on the schedule, from being
played. The Orphans made two runs in
the fourth and Brooklyn was unable to
tie the score until the eighth. Chicago
won the game on bunt hits by Connor
and Donahue.

Baltimore and Cleveland played another
transfered game at Philadelphia, the
Orioles winning without difficulty by
strong work at the bat. The scorers:
At Washington—
Washington . . . 9 0 0 0 1 0 0 0-12
New York . . . 2 0 0 0 1 0 0 0-6
Batteries—New York, Seymour and
Grady and Warner; Washington, Dineen
and McGuire.

Second game—
Washington . . . 0 0 0 0 2 0 0 0-4
New York . . . 1 0 0 0 0 0 0 0-1
Batteries—Washington, Killen and Mc-
Guire; New York, Doherty and Warner.

At New York—
Brooklyn . . . 1 0 0 0 0 0 0 0-10
Chicago . . . 0 0 0 0 0 0 0 0-13
Batteries—Chicago, Woods and Don-
ahue; Brooklyn, Dunn and Ryan.

At Philadelphia—
Philadelphia . . . 0 0 0 0 0 0 0 0-1
Cleveland . . . 0 0 0 0 0 0 0 0-4
Batteries—Philadelphia, Main and Wil-
son; Cleveland, Powell and O'Connor.

Baseball Notes.
Clean base ball in New York has so
far this season cost President Freedman
about \$3,000.

Chicago has been a participant in three
fourteen-inning games this year, and
each time Woods has been in the box.

It is thought in St. Louis that Michen-
fuse has "the pins set up" and will be
in command of the Browns next year.

The National League directors will
meet at Philadelphia next Monday. The
New York-Baltimore controversy, in
which President Freedman stopped the game
from finishing a game, will receive a
hearing.

The game at Milwaukee yesterday was
evidence that the Indianapolis club can
stand the list in the Western League
when its best players are up to the proper
standard. The game will have much to
do with holding the club in the confi-
dence of the home crowd.

The Blues continue their winning
groove and are playing a series with St.
Paul, which stands third in the race.

Remember the Bates Shop.
When the L. A. W. members thought of
coming to Indianapolis, they evidently kept
in mind the fact that they would not fail to
visit while here; namely, the Bates Shop.
This popular shop has been a
place where the opportunity was here to
step into it, both for the purpose of enjoying
the fine display of goods, and to see one
among the best equipped and most ex-
ecutive furnished shops in the country. The
shop is located at the corner of Madison
and Washington streets, and was
one among the visitors to the "Bates"
and had many a chance to see the high class
about the mahogany chairs, in which he re-
sides and general furnishings of the place. The
Bates has no doubt added largely to al-
ready popular name, which will be carried
into many distant places by the strangers
now in the city. The shop is elaborately de-
corated in gay colors, palms, etc., and wears a
holiday-like appearance.
